THE FACTORY SUPPLIED WIRING WITH THE PUSH START KIT TO THE IGNITION SWITCH WIRING WILL BE REPLACED WITH NEW UPGRADED BLACK WIRING TO HELP KEEP THE WIRING HIDDEN AND HARDER TO IDENTIFY AND AS A HOPEFULL DETERENT. THE ONLY LABEL THAT WILL BE SEEN IS THE GROUND WIRE THAT YOU CAN BOLT DOWN WHERE YOU CHOOSE. THE FACTORY SUPPLIED WIRING IS ONLY 20 INCHES, WHERE AS I HAVE EXTENDED IT TO ALMOST 3FT TO HELP MOVE THE BRAIN AWAY FROM THE STANDARD UNDER COLUMN INSTALL, THIS ALSO HELPS TO GIVE MORE LENGTH TO HELP HIDE THE KIT.
